Nesso Strategies

Nesso Strategies was founded in 2009. Nesso is the Italian word for connection, and our focus is connecting people, process, and performance for bottom line gain. Our organizational development efforts are delivered with actionable and accountable strategy and tactics to help people build their own literacy with each other.

Vision

We maximize human potential for the benefit of the individual and the organization.

Mission

Our core values of authenticity, accountability, respect, and passion guide our partnerships with clients who seek to advance themselves and their organizations. We partner with individuals and companies who seek our unique perspectives and powerful solutions to mind and mine their businesses. We create environments where the greatest human potential can emerge.
